SUPPLEMENTARY INFORMATION:

Congress enacted the United States Grain Standards Act (USGSA) (7 U.S.C. 71 – 87k) and the Agricultural Marketing Act (AMA) (7 U.S.C. 1621 – 1627) to facilitate the marketing of grain, oilseeds, pulses, rice, and related commodities. These statutes provide for the establishment of standards and terms which accurately and consistently measure the quality of grain and related products, provide for uniform official inspection and weighing, provide regulatory and service responsibilities, and furnish the framework for commodity quality improvement incentives to both domestic and foreign buyers. AMS's Federal Grain Inspection Service (FGIS) establishes policies, guidelines, and regulations to carry out the objectives of the USGSA and the AMA. Regulations appear at 7 CFR 800, 801, and 802 for the USGSA and 7 CFR 868 for the AMA.

The USGSA, with few exceptions, requires official inspection of export grain sold by grade. Official services are provided, upon request, for grain in domestic commerce. The AMA authorizes similar inspection and weighing services, upon request, for rice, pulses, flour, corn meal, and certain other agricultural products. Conversely, the regulations promulgated under the USGSA and the AMA require specific information collection and recordkeeping necessary to carry out requests for official services. Applicants for official services must specify the kind and level of service, the identification of the product, the location, the amount, and other pertinent information in order that official personnel can efficiently respond to their needs.

Official services under the USGSA are provided through FGIS field offices and delegated and/or designated State and private agencies. Delegated agencies are State agencies delegated authority under the USGSA to provide official inspection service, Class X or Class Y weighing services, or both, at one or more export port locations in the State. Designated agencies are State or local governmental agencies or persons designated under the USGSA to provide official inspection services, Class X or Class Y weighing services, or both, at locations other than export port locations. State and private

agencies, as a requirement for delegation and/or designation, must comply with all regulations, procedures, and instructions in accordance with provisions established under the USGSA. FGIS field offices oversee the performance of these agencies and provide technical guidance as needed.

Official services under the AMA are performed, upon request, on a fee basis for domestic and export shipments either by FGIS employees, individual contractors, or cooperators. Contractors are persons who enter into a contract with FGIS to perform specified sampling and inspection services. Cooperators are agencies or departments of the Federal Government which have an interagency agreement, State agencies, or other entities which have a reimbursable agreement with FGIS.

Title: Reporting and Recordkeeping Requirements (United States Grain Standards Act and Agricultural Marketing Act of 1946).

OMB Number: 0581-0309

Expiration Date of Approval: January 31, 2021

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The USGSA and the AMA authorize USDA to inspect, certify and identify the class, quality, quantity and condition of agricultural products shipped or received in interstate and foreign commerce.

Estimate of Burden: Public reporting and record keeping burden for this collection of information is estimated to average .13 hours per response.

Respondents: Grain producers, buyers, and sellers, elevator operators, grain merchandisers, and official grain inspection agencies.

Estimated Number of Respondents: 8,666

Estimated Number of Responses per Respondent: 143

Estimated Total Annual Burden on Respondents: 161,614 hours

As required by the PRA (44 U.S.C. 3506(c)(2)(A)) and its implementing regulations (5 CFR 1320.8(d)(1)(i)), AMS specifically requests comments on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.
